Dear esteemed members,

Another beautiful San Diego summer is here and great things are happening in our Local Section. For the first time in the history of the ACS National Organic Chemistry Symposium (NOCS), the jewel of our city, La Jolla, will serve as the backdrop to some of the most exciting developments in the field of organic chemistry. The NOCS will take place from June 26 to June 30 at the La Jolla Marriott. We are honored to have Nobel Laureates, Frances Arnold, and Benjamin List as this year’s keynote speakers.

Have you recently graduated and are thinking about your next move? Are you a mid-career professional considering a career change? How about chemistry patent law? On June 23, join us in Carmel Valley for an in-person career panel and information session at the Wilson Sonsini office. Three patent law experts, David Wallace, Ph.D., Alice Lee-Dutra, Ph.D., and Deborah Smith, Ph.D., J.D., will discuss their journeys and insights into this field. This event is free and refreshments will be provided.

I would like to express my appreciation for our May speaker, Mary Virginia Orna, Ph.D., for her riveting presentation, “Fashion, Pharmaceuticals, Food, and Fun: How Color Changed the World”. Dr. Orna’s talk was one of the best ever received by our Local Section. When you've impressed both experts and undergraduates alike, you know you've done something right! Dr. Orna closes out our monthly lectures for now. We will resume our Lecture Series in the fall.

As we look to July, the annual Med Chem Symposium will take place virtually on July 15. This year, we will feature four distinguished speakers from academia and industry, Dr. Fleur Ferguson (UCSD), Dr. Mark Tichenor (Janssen), Dr. Anil Gupta (Calibr), and Dr. Scott Hecker (Qpex Biopharma). I hope you will be able to make it.

I wish you all a fun, educational and prosperous month of June.

With gratitude,

Juan Gonzalez
